

Harrisburg, Penna.

May 1957

Fall, 1907—Spring, 1908

## **WHOLESALE PRICE-LIST**

For the Trade Only

TWENTY-THIRD YEAR—ONE HUNDRED ACRES

# **Kelsey's Rhododendrons Azaleas and other Hardy American Plants**

*Grown in the Carolina Mountains at 3,800 feet elevation*

**HIGHLANDS NURSERY, "Kawana," Saginaw P. O.**

**North Carolina**

**and SALEM BRANCH NURSERY, Salem, Mass.**

### *Specialties at Highlands Nursery*

- 23,000 Azalea lutea. 6 in. to 4 ft., clumps.
- 5,000 Azalea arborescens. American Tree Azalea.
- 10,000 Azalea vaseyi.
- 50,000 Rhododendron catawbiense. 6 in. to 6 ft., clumps.
- 10,000 Rhododendron punctatum. Small and large.
- 40,000 Rhododendron maximum. 3 in. to 4 ft., clumps.
- 20,000 Kalmia latifolia. 3 in. to 4 ft., clumps.
- 3,000 Tsuga caroliniana. The Rare Carolina Hemlock.
- 20,000 Tsuga canadensis. American Hemlock.
- 4,000 Pinus strobus. 4 to 8 ft.
- 4,000 Ilex opaca. American Holly.
- 20,000 Viburnums—cassinoides, acerifolium, alnifolium, dentatum, etc.
- 4,000 Stuartia pentagyna. American Camellia.
- 5,000 Chionanthus virginica.
- 3,000 Betula lutea. 6 to 8 ft.
- 50,000 Vaccinium macrocarpum. Clumps for evergreen border planting.
- 30,000 Stenanthium robustum. New introduction.
- 40,000 Lilium superbum. Fine bulbs.
- 10,000 Lilium carolinianum. New.
- 50,000 Trilliums. Rare species.
- 50,000 Hardy Herbaceous Perennials.

### *Specialties at Salem Branch Nursery*

- 25,000 Cypripedium reginae (spectabile) crowns.
- 5,000 Specimen Rhododendrons — catawbiense, maximum and hardy hybrids.
- 2,000 Large Specimen Evergreens, Shrubs, Trees and Vines.

*Always address*

Gift of

## **KELSEY'S** Hardy American Plants Rhododendrons and Azaleas

### **Information**

**HIGHLANDS NURSERY SHIPMENTS** are made from Pineola, N. C., freight station, and **prices in this list are made on this basis.** Freight and express rates have been reduced, and we will gladly quote rates. Via Norfolk Steamship Lines, deliveries to northern and eastern points are quick and rates low.

**SALEM BRANCH NURSERY SHIPMENTS** are made from Salem direct, and our **special price-list must be used in ordering.** Prices are about 25 per cent higher than for similar stock at our main **Highlands Nursery.** A fine stock of specimen Rhododendrons, Azaleas, Conifers, etc., may be seen at Salem Branch Nursery, and deliveries to eastern points rarely take more than a day or two.

**SHIPMENTS OF "COLLECTED" RHODODENDRON MAXIMUM AND KALMIAS** are from our special fields in Pennsylvania or the southern mountains, depending on destination and quality of stock desired. The best clumps come from the South from high altitudes.

**"COLLECTED" RHODODENDRON CATAWBIENSE AND RHODODENDRON PUNCTATUM** come only from the South.

**OUR NURSERIES ARE UNIQUE,** being the first and only to grow Native American Ornamentals, and we now have the only large and complete stock of Hardy American Rhododendrons, Azaleas, Kalmias and like plants in existence.

**THE LOCATION OF HIGHLANDS NURSERY** also is unique, an elevation of 3,800 feet insuring unquestioned hardiness.

### **Terms**

**TERMS** cash or satisfactory reference from unknown parties. Accounts due first of each month, unless by special arrangement.

**PACKING** charged at cost.

**OUR EXPORT SHIPMENTS** reach the most remote countries in perfect condition; we have exported for over 20 years and know how to pack.

**SEND FOREIGN REMITTANCES** by Postal Money Order, drawn on Salem, Mass., postoffice; or by New York or Boston Exchange. An American dollar equals 4 shillings, 4 marks, or 5 francs.

**CLAIMS** must be made on receipt of goods. If there is any mistake or fault on our part, it will be gladly rectified. All shipments travel at consignee's risk, and transportation companies must be held liable for damage in transit.

**SHIPPING BEGINS IN SEPTEMBER,** when we send out large Rhododendrons, Kalmias and other evergreens, and bulbs and herbaceous plants, general stock going out in October and November and in spring from about March 1 to May 15. Give shipping instructions, unless you wish to leave it to us. **We use our best judgment, but assume no risk.**

**A CERTIFICATE OF INSPECTION** accompanies shipments.

**HARDY STOCK ONLY** is offered in this Catalog, unless specially noted.

**A BEAUTIFULLY ILLUSTRATED DESCRIPTIVE CATALOG** is mailed on request.

**ESTIMATES** made on lists of nursery stock desired by parks, cemeteries and public institutions.

Always address,

**HARLAN P. KELSEY, Owner**

**KELMONT-SALEM**

**SALEM, MASS.**

*September and October is the time to successfully ship  
and plant Lilies, Trilliums and Cypripediums*

*Rhododendron catawbiense*. The proper way to mass it with low ferns and evergreens for edgings. Photographed at Salem, Mass.

## 50,000 (<sup>TRUE</sup> SPECIES) *Rhododendron Catawbiense*

FROM 3-INCH PLANTS WITH BALLS, TO 6-FOOT CLUMPS

This is not the common imported "seedling *Catawbiense*" so-called, which is a half-hardy hybrid with little true *Catawbiense* blood in it. The true *Catawbiense* grows only in the high southern Alleghenies and is the **finest of all Rhododendrons** considering its extreme hardiness and remarkable texture of foliage—a deep shiny green, far superior to **Maximum**.

Clump of *Rhododendron catawbiense* (true). Showing method of growing bushy clumps with 15 to 50 stems. Photographed at Salem Branch Nursery

# KELSEY'S Hardy American Plants Rhododendrons and Azaleas

## RHODODENDRON CATAWBIENSE, continued

For massing there is no hardy broad-leaved evergreen equal to it for the northern United States. It is a free-bloomer with large bright red-purple trusses, in marked contrast to the blue-purple of the half-hardy hybrid noted before.

## PRICES

Packing charged at cost, except clumps in car-lots, f. o. b. All plants are bushy with balls (except collected **seedlings**) and clumps have diameter corresponding to height with many stems, and are mostly heavily budded. The larger clumps for center of mass planting should not be feathered to the ground for best effects, but have thick bushy tops. Special selections are charged for extra and we can supply perfect specimens for any situation.

Photographed at Salem Branch Nursery

The hardest Hybrid Rhododendrons growing at Salem Branch Nursery

**40,000 Rhododendron maximum**

**10,000 Rhododendron punctatum**

**20,000 Kalmia latifolia**

**13,000 Leucothoe catesbaei**

These splendid hardy broad-leaved evergreens together with *R. catawbiense*, are the basis of any successful mass planting for winter effects. If you don't know how to advise your customers so they may grow these choice evergreens as easily and successfully as common shrubs, write us. **There is a secret**, and 23 years' experience in growing ericaceous plants enables us to "tell how." Our stock is immense and cannot be duplicated elsewhere in quantity or quality. The best "collected" clumps of *R. maximum* and *Kalmia* come from North Carolina, though we ship a fine grade from special sources in the northern Alleghenies. Freight rates from southern points are reduced and we gladly quote you to any point, and give the information you want about "car-lots."

## RHODODENDRON MAXIMUM

CONDITIONS AND CHARACTER OF STOCK ARE THE SAME AS  
FOR RHODODENDRON CATAWBIENSE

## Shipment from Salem Branch Nursery

CLUMPS, Nursery-grown only.	Per 10	100
1½ to 2 feet.....	\$10 00	\$90 00
2 to 3 feet.....	16 00	150 00
3 to 4 feet.....	40 00	325 00
4 to 5 feet.....	50 00	425 00

## RHODODENDRON PUNCTATUM

Very different from *Catawbiense* or *Maximum*, both in foliage and flower, and the growth is distinct and graceful. The rose-colored blossoms are borne in greatest profusion in May or early June. Fine for borders of mass plantings or for rocky slopes and cliffs, as it stands exposure unusually well.

## Shipment from Highlands Nursery
